"Don't run away yet Hen, if you do, you'll wake the Indians, and they'll till us. You mus'nt stir yet, for we must kill these Indians before we go."

Henry was afraid at first, for he was avery little fellow, and only cleven years old, and the idea of his killing one of the great, stalwart savages that lay sleeping at his feet seemed to him an utter in that he must make the attempt, and arter some hesitation the little fellow consented to do so.

The plan upor which John had decided would have done credit to an old hunter, and it is remarkable as coming from a boy so young, inasmuch as it exhibits an unusual degree of originality, fertility of resource, and determination. He told him to pull the weapon, and made him put his finger on the trigger, and shoot the savage as soon as he should strike the other. Then stepping back, he possessed himself of the Indian's tomahawk, as he found that it would be impossible to remove the right without arousing its owner. He grasped the tomahawk, and then assuring himself satisfied of one of them. They were still unconscious, the fatigue of their long march on the previous day having thrown them in a profound slumber.
